

NO LET-UP IN NATION'S TAXES.

Must Face Continuance of \$4,000,000,000 Bill.

No Relief Seen for at Least Three Years.

Treasury Department Will Recommend Methods.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Nov. 7. — The nation will face a continuance of the annual tax bill of \$4,000,000,000 for a period of at least three years, if Congress adopts recommendations drafted by treasury officials, and which it is understood tonight, have been laid before Secretary Houston for approval.

Secretary Houston, it was said, probably will include such recommendations in his forthcoming annual report to Congress. The analysis which he made, it was said, that the three-year program for tax revision required in order to meet mounting government obligations and cover current Federal expenses and that approximately \$4,000,000,000 in Victory notes, War Savings securities and treasury certificates of indebtedness will be due for payment within the next three years, treasury figures show.

Reduction of the present aggregate level of taxes, or maintenance of the annual revenue of the government at about \$4,000,000,000, then is held to be unavoidable on the face of average expenditures estimated for the period.

EXCESS PROFITS TAX. Recommendations to be made by Secretary Houston, it is understood,

will propose abolishment of the excess profits tax in their entirety and the substitution thereof of a graduated income tax of a substantial, deeper cut than under present revenue laws. It was believed the new income taxes would apply only to incomes above \$10,000 annually and that provision would be made for a graduated increase even on the additional tax as the amount of income grows larger.

The Secretary is expected to address economy in Federal appropriations is necessary if the program outlined in the bill is to be accomplished. He has said that there was no way to estimate with any degree of accuracy what even the present laws would yield in revenue, because of the rapidly changing conditions in business as a result of post-war transition and readjustment. His view of this was said to be that tax receipts would be materially lower later in the present fiscal year which ends June 30, 1921, and that, therefore, the government income under the present revenue laws could not be taken as a basis for calculating future receipts.

TASK OF GREAT DIFFICULTY. This attitude, which is held also by practically all treasury officials having to do with tax collections, forecasts a task of great difficulty for the framers of the new revenue act, but the ways and means of getting it will be left to Congress, except for the suggestions contained in the treasury report. In fact the tax law framers will be informed that there is no alternative to voting a revenue act that will produce the required amount.

The program for handling the national debt can be accomplished only through annual revenue of \$4,000,000,000, treasury officials hold. With the Victory notes maturing in 1923 and the War Savings securities falling due in the interim and until 1924, it was declared a possibility that the \$4,000,000,000 tax level might have to be continued even until the latter date.

The treasury views are expected to clash with those of the Republican majority in Congress on questions of ways and means of obtaining the needed revenues. But with the changing administration, it was understood the present regime at the treasury would merely suggest and offer little argument in support of their stand for repeal of the excess profits taxes and replacement of the amounts so gained by higher income taxes.

OBREGON'S IDEAS ON EDUCATION.

HEIRESS' HUSBAND TO DON OVERALLS.

(REUTERS SERVICE.)

PHILADELPHIA, Nov. 7. Carter Randolph Letty has decided to go to work. The young Philadelphia who started society last winter when he eloped with Miss F.W. Widener, daughter of Mr. and Mrs. Joseph E. Widener, will tomorrow put on overalls, roll up his sleeves and go to work like hundreds of other steel employees.

Letty and his wife have moved to Berwick, Pa., where they have rented a small cottage on the outskirts of the town and will live like the other workmen employed there by the American Car and Foundry Company.

Letty is said to have been unable to catch a glimpse of each other's features for a second and to have been unable to recognize the intruder on the standing platform.

And during all the interval between the killing and the confession of his crime, Letty was unfolded to me his views upon education, the needs of the Mexican people, as he understood them, and I was amazed at his vision, his grasp of detail and his eye for the essential. I regretted that his words were not recorded as they were uttered.

As luck would have it, however, on our arrival in Puebla, the professors and students of the university—a most imposing edifice—were gathered in the great hall to receive him. A student—a member of the special class of the Mexican people, as he understood them, and I was amazed at his vision, his grasp of detail and his eye for the essential. I regretted that his words were not recorded as they were uttered.

ADMITS BRUTAL MURDER.

Rejected Suitor Slashed Throat of Louis Typist After Struggle.

(BY A. P. NIGHT WIRE.)

ST. LOUIS, Nov. 7.—Edna Ellis, the 18-year-old typist, was found with the throat slashed in a vacant lot near her home Friday morning, was killed by Albert Ellis, 31, a suitor, who had rejected her attentions, according to a signed confession Ellis had made to the police today.

According to Ellis's signed confession, he intended to commit suicide, but the blade of the razor he used broke as he slashed the throat of his victim the third time.

Ellis, who is an electrician, admitted the killing after several hours' grilling, according to the police. He was arrested Saturday on information furnished by Mrs. Marie Ellis, mother of the slain girl. She said Ellis, who formerly lived at her home, had threatened her for breaking off their engagement after a quarrel.

WAITED AT CORNER. According to the alleged confession, Ellis waited at the corner of the district police station, where he was arrested, and he waited for the girl to return from work, but she refused to talk to him and started for home.

When the girl's body was found, both hands were badly cut. The alleged slayer is said to have admitted that she was in a time beginning him not to see her. The report that Ellis had focused rapidly gathered and crowd quickly gathered around the district police station, where he is held. Police made attempts to keep the people off, but there was little talk of a razor.

HANDS LACERATED. When the girl's body was found, both hands were badly cut. The alleged slayer is said to have admitted that she was in a time beginning him not to see her. The report that Ellis had focused rapidly gathered and crowd quickly gathered around the district police station, where he is held. Police made attempts to keep the people off, but there was little talk of a razor.

RUTAL MURDER

Slashed Throat of Victim After Struggle

BY A. P. HIGHT WIRE
The 18-year-old victim whose body was found in a vacant lot near her home, was slain by a man, who, according to a signed confession filed in court, cut through a vacant lot to her home.
Ellis is said to have stated that she followed her lover, who was known to her, down a vacant lot, where he attacked her with a knife, slashing her throat. She was taken to a hospital, but died before she could be operated on.
HANDS LACERATED
When the girl's body was found, her hands were badly lacerated. The alleged slayer is said to have admitted that she saw the man struggling with him, at the time she was being not to cut her hands.
The report that Ellis had been found quickly gathered around the district police station, where she was held. Police made every attempt to keep the people away, but there was little talk of violence.

the road night after night, to take the hazard of his life for the sake of a woman. He was found in a vacant lot, near his home, with a knife in his hand. He was taken to a hospital, but died before he could be operated on.

WILL CUT COST OF BREAD IN ARGENTINA
Buenos Aires, Nov. 3.—A report from Buenos Aires, Argentina, says that the government has decided to cut the cost of bread by 10 percent. This decision was reached after a long and bitter struggle between the government and the bakers' union. The government has agreed to pay the bakers a higher price for their flour, but in return, the bakers have agreed to reduce the price of their bread.

new Idea in Stores
The growth of the chain store is a remarkable development of the modern era. It has enabled the merchant to buy in large quantities at a lower price, and to sell at a lower price than the individual store. This has resulted in a great saving to the consumer, and has made the chain store a popular institution.

NO PROSPECT OF BUSINESS PANIC.

Supply and Demand Will Regulate Prices.

Manufacturing and Mining Meeting Situation.
See No Call for Production When Unable to Sell.

(RECEIVED DISPATCH)
WASHINGTON, Nov. 3.—Business and industrial adjustment in the United States is at hand with no prospect of a financial panic, according to the Chamber of Commerce of the United States.
In the insurance today, the monthly report of the committee on statistics, Archer Wall Douglas, chairman, the chamber takes a generally hopeful view of the business situation and declares the time has passed for consideration of heroic measures to stabilize prices. Supply and demand, it says, will regulate matters in time. "That demand just now is slackening," it says. "We are over the top and on the down grade in most phases of industrial life."
"The report," although there still continues to be exceptions to this general statement, "furnishes lines of metals, drugs and automobile sundries are among the most notable exceptions, especially as to price changes, which are few as yet in these particular branches of business."

DEMAND SLACKENING.
"Demand in all lines is slackening. It is everywhere a case of overproduction. The law of supply and demand is at work. We are having a vivid illustration of this in the case of the automobile. The country is flooded with them. They are not really needed. Also, we see how people will go along without things they once thought indispensable once the fit of economy is on them."
"Manufacturing and mining are meeting the situation in the usual fashion by running on reduced time or shutting down. This has already meant, in some cases, reduced wages. Zinc, lead and copper mines are at work keeping their ore and when prices keep on declining, just now the need of the country may be for more consumption rather than more production."

LAW OF SUPPLY AND DEMAND.
"Talk of stabilizing prices so as to save the situation no longer interests anyone save a few hopeless theorists. The law of supply and demand will, in time, regulate matters."
"The entire business world is steadily trending to that adjustment which we have talked about so long. We are waiting that before several times and we will go through it again successfully. This time it is not of it, but of the financial panic, and ensuing disaster. And through it all, the Federal reserve bank system will be a help."

PUT HOUSE IN ORDER.
"Theories of great and startling changes in the framework of manufacturing life are dying out in view of the exigencies of the occasion as to how to maintain adequate production at reasonable remunerative prices. Industrial life, in time, will doubtless be more democratized than at present. The law of supply and demand will, in time, regulate matters."
"The entire business world is steadily trending to that adjustment which we have talked about so long. We are waiting that before several times and we will go through it again successfully. This time it is not of it, but of the financial panic, and ensuing disaster. And through it all, the Federal reserve bank system will be a help."

MAN CAPTURES PRIZE IN BEAUTY CONTEST.
"MADE-UP" STUDENT VOTED "LOVELIEST FLAPPER" AT UNIVERSITY.
(RECEIVED DISPATCH)
CHICAGO, Nov. 3.—They concluded a beauty contest today at the Northwestern University today with results which ought to encourage the homely.

NEGROES SHOOT UP VILLAIN ON SCREEN.
POLICEMEN WITH RIOT GUNS CALLED TO KANSAS CITY THEATERS; ARREST FIVE.
(RECEIVED DISPATCH)
KANSAS CITY (Mo.) Nov. 3.—"Come quick. They're trying to shoot up this place!"
The call was received by the police last night from a motion-picture theater at 7th and Independence avenues. Three city detectives hurried to the theater armed with riot guns.
When the detectives entered the theater they found a negro in the rear of the room crouched on one of his knees firing a revolver at the cinema screen on which villain was strangling a heroine to death.
In another part of the theater, three other negroes were firing at the screen. As the detectives advanced the lights in the place went out. Later they arrested five young negroes.

THOUSANDS OF COAL CARS TO BE RELEASED.
(BY A. P. HIGHT WIRE)
WASHINGTON, Nov. 3.—Approximately 35,000 cars will be released from coal traffic for other commodities under an order issued by the Interstate Commerce Commission, effective tomorrow. It is expected that the coal production order will be revoked as soon as coal shortages in scattered sections have been relieved.

(BY CABLE AND ASSOCIATED PRESS)
LONDON, Nov. 3.—Edouard Dreyer, noted singer, died here today. He was the father of the well-known composer and music publisher, Hermann and Max Dreyer.

The World Today

BY MONTLEY H. FLINT, Vice-President, Los Angeles Trust and Savings Bank.

Recently I had the opportunity of commenting the work being done by the Manual Arts High School through their students' self-government system, in making producers of the students—both boys and girls—even before graduation. As an example of this, the total earnings of \$14,495.75 of 518 students who worked during the last Christmas holidays—from December 13 to 27—were cited. These students worked a total of 5484 days.
The showing attracted the attention of that eminent financial expert of the Los Angeles Times, Mr. Chapin Hall, to the extent that he reproduced the article from "The World Today" series as the leading article of his feature, "Daily Trade Talk" on the financial page of that paper.
That the information given was of real value was Mr. Hall's comment. Taking this for granted, coming as it does from so authoritative a source, I am inclined to give the people of Los Angeles and Southern California later data along the same line.
Of the 2500 students at Manual Arts, 684 were employed for varying periods during the last vacation, from June 22 to August 30. These students earned a staggering total of \$17,129.20. This is especially impressive when it is remembered that some of these 684 students were employed for such short periods of the vacation as one week!
Further details of their productivity is shown by the following tabulation:

514 boys employed earned.....\$ 74,221.80
170 girls employed earned.....17,129.20
884 students employed earned.....\$ 91,478.18
Average earned by boys students employed during vacation \$144.40
Average earned by girls students employed during vacation \$100.78
The fact that the annual business transacted by the students body of Manual Arts amounts to round numbers to \$100,000 is worth of repetition. Last year the actual deposits of the student body with the Los Angeles Trust and Savings Bank reached the total of \$73,341. This does not include all of the money handled, inasmuch as the turnover of receipts from these funds sources does not permit its being deposited in the bank.
Each a member of the student body of Manual Arts elects its officers by popular vote. The president, the chief officer, presides at assemblies, has charge of the council, and in general is supervisor of the self-government organization.
The council is a democratic, legislative body composed of all the class room presidents (some seventy-five of Manual's cleverest girls and boys) is probably the most important activity of the Student Body Organization. The President of the Council, who is also President of the Student Body, is responsible to all of the students, while every member is responsible to the class room he represents.
At least once a week a meeting is held and important questions concerning the school are debated and decided. It is here that the managers of the different athletic teams are elected, that plans are made, and laws are passed.
Here also the school constitution may be amended, the policy of the Self Government changed, or the nature of certain assemblies determined. On these measures at any time the Council may ask the advice of the Student Body, or the Student Body may call for a referendum vote on any measure which the Council has passed.

Manual Arts has real self government. Each student is expected to conduct himself that no control from the outside is necessary. Of course, among such a large number of students there are some who will not willingly obey the rules necessary for the welfare of all, and in order to prevent these from doing things which cast reflections on the whole student body, there are organizations to enforce the will of the majority. These are called the Self Government Organizations, one for the boys, and one for the girls. A president of each organization is elected by the student body, and these presidents together with other officials, some of whom are elected by the class rooms and others appointed by the presidents, enforce such rules as are necessary to secure the proper attitude of all the students. These organizations also have charge of tardiness, not only in the morning but also to classes.
Each organization has a real court of its own, where offenders who plead "not guilty" are tried. A jury, composed of students, renders the decision, and each case is given a square deal.
It is necessary that there be a most efficient handling of all money matters in order that this organization may be financially prosperous and responsible. To this end, the Board of Finance, composed of four students and three teachers—the Principal or his representative, the Student Body President, the Treasurer, the Auditor, the Chairman of the Committee on Inter-school relations, a representative from the Program Committee and the Student Body Manager, who presides—meet once a week to decide on all financial business, appropriations, etc., and involve the Student Body Organization. Much credit is due the Board of Finance for its efficient services to the Student Body. As a result of these services Manual is as great a success financially as in any other way.

MORE POLICEMEN WOMEN CHECK SPATS SHOT IN IRELAND

AT RACES IN PARIS.

(Continued from First Page.)
pursuers. One policeman was captured and thrown into the Liffey, but was rescued by other police.
Numerous raids were carried out in Dublin yesterday. The printing establishment of Patrick Mahon, where the Sinn Fein organ, "The Irishman," is published, was searched and documents removed. Mahon was arrested. His associates dismantled the machinery and ordered the plant closed.
The district hall at Gormanstown, County Leitrim, was burned at dawn by uniformed men. The vacant police barracks in Gormanstown were burned.
CORRESPONDENT COMPLAINS
(BY CABLE AND ASSOCIATED PRESS)
LONDON, Nov. 3.—The correspondent of the Central News at Tralee, Ireland, reports he has received written warning that he will be court-martialed if he transmits any dispatches without first submitting them to the police.
Sir Hamar Greenwood, Chief Secretary for Ireland, was questioned in the House of Commons last Wednesday regarding a story from a staff correspondent in Ireland of the Daily News to the effect that the correspondent's life was in danger from "black and tans" because he wrote the "truth."
The government, said Sir Hamar, had not been informed of the threat, but he had instructed the district inspector at Tralee, where the threat was alleged to have been made, to give protection to all newspaper correspondents.

MARCH AROUND WHITE HOUSE
(BY A. P. HIGHT WIRE)
WASHINGTON, Nov. 3.—Hundreds of Irish sympathizers marched for an hour tonight in single file around the White House as a protest against the recent death of Terence MacSwiney. The demonstration was organized at a meeting of the local branch of the Friends of Irish Freedom and it was announced it would be repeated each night for seventy-three days, once for each of the days MacSwiney fasted before his death.
Banner bearing inscriptions "Get the British army out of Ireland" and "MacSwiney's death shall not be in vain" and others were carried by the marchers. President Wilson, it was said, had retired and there was no indication from the White House that the presence of the marchers had been observed.
DUBLIN, Nov. 3.—Seven volunteers are reported to have been killed in a fight at the causeway, near the city, where thirty-four arrests were made in Cork during the curfew hours Saturday night.

Meetings Today to Decide Whether or Not War is to Disrupt Major League Baseball

LOOKING FOR A DOVE OF PEACE.

Ball Magnates Discuss Means of Avoiding War.

Rival Factions Hold Separate Meetings Today.

San Gathers Members of the "Loyal Five" About Him.

CHICAGO, Nov. 7.—Whether a war is to break into the major league or the dove of peace is to continue to soar above the professional ranks of the national game probably will be decided here tomorrow when separate meetings of the two factions in the proposed reorganization of baseball will be held.

Today preliminary conferences were held by both sides. President John Johnson, of the American League, met with the members of the Washington club, and Connie Mack of the Philadelphia Athletics, the other three members of what Johnson terms the "loyal five" failing to appear. They are expected to be here tomorrow, however, for the league meeting which Mr. Johnson has called. Meeting a few blocks away with John Heydler, president of the National League, were thirteen representatives of National League clubs. Tomorrow they will hold another meeting, which is expected by the National League.

President Heydler said after the meeting that the situation was "the same, now as when the eleven clubs signed their agreement to form a twelve-club league if the other five American League clubs did not join in the reorganization. Chicago, St. Louis, Cleveland, Detroit and New York are the "loyal five" who have refused to join the reorganization.

"The door is open," he said, "to the five American League clubs. If they want to join our league tomorrow, we shall be glad to have them. Any action at that meeting will be decided by a majority vote and we shall stand by that action to the end. It is either a case of the American League joining the National League or we shall stand by our own league and we shall stand by our own league."

Mr. Heydler tonight said that the meeting of the "loyal five" American League clubs which would attend the meeting of the National League tomorrow, any action taken by the minor leagues would have no bearing on the situation. He said that the "loyal five" American League clubs which took the first steps toward reorganization.

Besides the preliminary conferences today, the major league magnates also conferred with numerous minor league presidents and managers en route to Kansas City for the minor league meeting Tuesday.

IF ATTENDANCE.

Those attending the meeting today with Mr. Heydler were William Veck, A. D. Lasker and William Veck, Jr., of the Chicago club; Harry Harman, of the Cincinnati club; C. Jones, Samuel Braden and Dwight of Pittsburgh; W. L. Barker of Philadelphia; Charles Ebbets of Brooklyn; and John McGraw and Charles Steinham of New York.

Representatives of minor league baseball clubs who left here tonight for Kansas City, included Jack Hendry and W. J. Smith of Indianapolis; John H. Farrell, secretary of the National Association of Minor Leagues; Cal Brining of Oakland; E. W. Dick-Legge, president of the Central League; George Maines, president of the Michigan-Ontario League; David C. Fultz, president of the New International League; J. J. Hickey, president of the American Association; and H. H. Hickey, president of the Western and Southern League.

CLINE PREDICTS A REAL GOLF SEASON.

A great golf season is in store for the California followers of the ancient and royal pastime who journey to Del Mar for the Del Mar golf season, declares George T. Cline.

A golf tournament is scheduled for Thanksgiving Day, one for Christmas and one for New Year's. All three tournaments are for men and women, and a good many golfers from all over California are planning to contend.

SOCKS FILL HARD.

Vern Blunkert, center fielder on the Cline-Cliff baseball team, is hammering the ball hard this season. According to Manager Finley he has hit an average of .500 for the season.

CARDS AND BEARS ON TOP.

SAN FRANCISCO, Nov. 7.—For the first time in western football history, California's annual "big game" between the University of California and Stanford University this year, authorities say, will be decided at Berkeley, November 20.

Victories yesterday of California over Washington State and Stanford over the University of Washington, put the two California schools in the lead in the conference race with the Oregon Agricultural College third.

Unofficial conference standings follow:

University of California..... 7-0
Stanford University..... 6-1
University of Oregon..... 5-2
University of Washington..... 4-3
Oregon Agricultural College..... 3-4

The conference schedule calls for four more games. Stanford vs. California, Oregon vs. Oregon Aggie, Washington vs. Oregon Aggie, and Stanford vs. the Oregon Aggie. When they are played the winner of the Berkeley game will have three wins and no defeats, with 1.66 percentage, while the Oregon Aggie, if they win their remaining games, will have three wins, one defeat and .75 percentage.

TILDEN DOWNS BILL JOHNSTON.

BERKELEY, Nov. 7.—William Tilden, Jr., of Philadelphia, world's tennis champion, defeated William Johnston of San Francisco, former world's champion, 11-9, in one set of a scheduled match here today.

Rain prevented playing of the remaining sets. Tilden and Johnston are members of the American Davis cup team here, en route to Australia.

Dr. Sumner Hardy of San Francisco, president of the California Lawn Tennis Association, today on behalf of the organization presented the members of the team with traveling clocks.

HUGE CROWDS THROG GRID ENGAGEMENTS.

NEW YORK, Nov. 7.—Entrance of the big college football teams of the East into the gridiron's world series yesterday was marked by attendance at five of the contests of more than 100,000 persons.

Forty thousand looked on while Harvard and Princeton battled to a 14-14 tie at Cambridge.

The Yale Bowl responded to the cheers of 20,000 as the Bulldogs trounced Brown, 14 to 10.

Cornell went to Dartmouth, 14 to 3, at the Polo Grounds here before 30,000.

More than 30,000 watched Union win from New York University on Ohio field.

SONS OF ST. GEORGE BADLY OVERWHELMED.

OVERSEAS SOCCER TEAM WINS BY SCORE OF 5 TO 0 ON HAZARD PLAYGROUNDS.

In a soccer football game which was one-sided from start to finish, the Overseas eleven defeated the Sons of St. George by a score of 5 to 0 on the Hazard playgrounds yesterday.

The Sons of St. George were weak in the forward line, and this eliminated any chance of the contest being close. Despite the threat of rain, a good-sized crowd of spectators turned out to witness the frolic.

On next Sunday, the Overseas team will meet the Pasadena aggregation on the Tournament Park grounds, where the Sons of St. George will entertain the Sons of St. George on the home lot.

MEDICO TAKES TRIP TO SANTA BARBARA.

Professional business called Dr. Albert Bolland, well-known Southern California yachtsman, to Santa Barbara last week. He had planned to talk the pending motorboat racing situation over with other local leaders, but he was called to Philadelphia, where he was to see the president of the National Association of Motorboat Racers.

He is expected to return to Los Angeles today, where he will see the president of the National Association of Motorboat Racers.

GRIFFITH PARK GOLF TOURNAMENT POSTPONED.

The qualifying round of the annual fall handicap golf tournament on the Griffith Park links was postponed yesterday on account of the quagmire condition of the course. It will be played next Saturday and Sunday. A ball sweepstakes has been scheduled for Christmas Day.

OKLAHOMA CINCERS FT.

NORMAN (Okla.) Nov. 7.—The University of Oklahoma practically won the Missouri Valley conference football championship here yesterday by defeating the University of Kansas, 21 to 8. It was the first defeat of the season for the Jayhawks and the second conference victory for Oklahoma.

Generally the team winning the conference title is invited to represent the West against an eastern team at Pasadena, Cal., New Year's Day. This year, if California wins the West, it will be challenged by the University of Southern California, providing the latter wins its Thanksgiving Day game against Oregon. The southern team, strong nonconference eleven, defeated Stanford early in the season.

California and Stanford, the leading teams, have remarkable records. California, said to be the best in the West, has won in seven years, has beaten eleven of the all stars of the West, most of them by overwhelming margins. It has piled up a total of 444 points on its opponents' 14. Stanford started the season by losing to the Olympic Club and University of Southern California, but displayed a reversal of form in the conference race and won both its organization games, besides defeating Santa Clara University. The California team is unusual, because a few years ago both played rugby football, while the other members of the conference have played the American game for years.

BUCKEYES HOT AFTER TITLE.

In Commanding Position to Win Middle West Crown.

Illinois Must Defeat Badgers to Meet Ohio State.

Zuppke's Men Feature With Close Following of Ball.

BY WALTER ECKERSALL.

CHICAGO, Nov. 7.—Victories of Illinois and Ohio State over Chicago and Michigan, respectively, in last Saturday's leading western football games have placed the Buckeyes in a commanding position to win the conference title, while Coach Zuppke's eleven must defeat Wisconsin next Saturday at Madison to meet the Urban Scholastic Bowl for the championship.

If the Badgers defeat Illinois and the latter in turn win from Ohio, there will be no Big Ten championship this season. Following the game with the Dan Patch, Wisconsin must defeat Chicago on November 20 to get into a triple tie for the championship with Illinois and Ohio State.

PLAY THEIR BEST.

Illinois and Ohio were compelled to play the best they knew to win from their fighting opponents. The Maroons played a great defensive game while Michigan gave every indication of holding the Buckeyes to a 7-to-7 tie until Stettin's punt was blocked at the beginning of the fourth quarter.

Chicago played a defensive game against Illinois. In fact, it was all that Coach Zuppke could do. His best ground-gaining backs were kept out of the fray with injuries while the Northwestern team was a "leopard" in its plans of attack. The Maroons fought with dogged determination from start to finish and are deserving a lot of credit for holding a team of Illinois' strength to a 2 to 0 tie.

One of the features of the contest was Illinois' following of the ball, a cardinal point in football well demonstrated with consistency. The contest also showed that last year's champion Illinois is a "leopard" in its plans of attack. The Maroons fought with dogged determination from start to finish and are deserving a lot of credit for holding a team of Illinois' strength to a 2 to 0 tie.

While this game was in progress, Coach Zuppke was well aware of the fact that the Northwestern team was a "leopard" in its plans of attack. The Maroons fought with dogged determination from start to finish and are deserving a lot of credit for holding a team of Illinois' strength to a 2 to 0 tie.

After Fletcher had kicked his field goal Illinois apparently had won the game. The Northwestern team was a "leopard" in its plans of attack. The Maroons fought with dogged determination from start to finish and are deserving a lot of credit for holding a team of Illinois' strength to a 2 to 0 tie.

NO OPPOSITION.

Ohio players drove through on Stettin's kicking side without apparent opposition. The Northwestern team was a "leopard" in its plans of attack. The Maroons fought with dogged determination from start to finish and are deserving a lot of credit for holding a team of Illinois' strength to a 2 to 0 tie.

It was the sort of play liable to happen at any time, but punters should be careful of the fact and not that the blocking men of their team are placed at the danger point.

The player who turned the completion of the entire game was Pete Sincinbush. This warrior was sent to the hospital last week with a collection of local stars known as the Wilson Gems.

On the Wilson Gems came here from the East last week to tangle with the Alexander team in a series for the championship of the West. The Wilson Gems came here from the East last week to tangle with the Alexander team in a series for the championship of the West.

with his material. The backs have the speed and drive but the line did not render the proper support against Ohio. The ends played well and Stettin's kicking was good most of the time. The Wolverines will settle down to hard work this week in preparation for the Chicago game on Saturday.

A REAL BATTLE.

As expected Minnesota gave Wisconsin a real battle. The Badgers emerged from the conflict on the long end of a 3-to-0 score. Quarterback Zuppke's kicking was good most of the time, for the only score of a bitterly fought contest. Coach Zuppke's kicking was good most of the time, for the only score of a bitterly fought contest.

GOPIERS PERK UP.

Minnesota is improving and unless under the accidentals happen during the week and the one preceding the Michigan game, the Gophers will make matters extremely interesting for Iowa on Saturday and the Wolverines on November 20.

Coach Williams' doing as well as can be expected with his material and is making the most of it.

Ever since 1905, when California and Stanford renounced the American game and adopted the near-Eastern game of Rugby, Washington and Oregon teams year after year have been driving the Pacific Coast honors.

In 1915 California forsook Rugby and re-established football as a sound basis at Berkeley. It has taken the Bears six years to get into the winning column. Stanford has come back in two.

The best part of it all is that when the great annual struggle at Pasadena on New Year's Day, it will be a home-bred California team that represents the West against the East. Washington and Oregon, but they will play in the bleachers as spectators.

At the stage of the game it seems that U.S.C. has eleven players up to the standard of the West. Nothing short of a miracle could bring about a Stanford victory on November 20.

U.S.C. has two games to play, meeting the University of Nevada here next Saturday and Oregon at Pasadena on Thanksgiving Day.

Just how much of a show the Trojan side will put on is hard to say, but a postgame game is arranged to be played after the return of U.S.C. to Nevada. The contest is in next Sunday.

The Bears beat Nevada, 19 to 7, this being only one of the few games in which the Mission Baseball League tied off top-heavy scores. If U.S.C. can stop All-American Bradshaw, the ninth and brought victory to California, things ought to be easy for the locals.

The Tackle Day battle between Oregon and U.S.C. can't change the complexion of the P.C.C. race, because the Bears' victory is a foregone conclusion. Today's contest, however, will be a game of the Stanford-California brawl.

In the Middle West Illinois and Ohio State are the only undefeated teams in the "Big Ten." The Bears' victory is a foregone conclusion. Today's contest, however, will be a game of the Stanford-California brawl.

Notre Dame, with the giant Gipp in the stellar role, rang up another victory Saturday at Stanford, 20 to 0.

In the Far East, Harvard and Princeton couldn't decide their dispute, the argument ending, 14 to 14. No one will get sore if Pasadena invites either side to the game, for the victor will be a part of the Thanksgiving Day races at the Los Angeles Speedway.

Aviation experts will be stationed with each government machine entered in the show, to explain aerial mechanism to the layman and to demonstrate how safe aeroplaning has now been made. This is believed to be the average man's fear of leaving the ground.

MUDDY FIELD HALTS WHITE SOX CONTEST.

Because of the gumbo condition of the White Sox ball field at East Fourth and Anderson streets there was no game yesterday between the Sox and the All-Stars, a team composed of major and minor cranks.

With the postponed game, the deciding one of a three-game series, will be played off next Thursday, Armistice Day. Previous to the contest there will be a field meet, including such stunts as fungo hitting, circling the bases, running to first and accuracy throwing.

CABINET POSSIBILITIES.

ALBANY (N. Y.) Nov. 7.—The State may lose the services of Senator Frederick M. Davenport, Republican, of Oneida county. It has been reported here that Mr. Davenport is in line for a Cabinet post under the Harding regime. It is said he is being considered for the office of Secretary of Labor.

THIEVES GET FIVE MOTORS.

Inclement weather kept members of the automobile-purloining department indoors for the most part yesterday, but a few of the more industriously inclined sallied forth and appropriated five machines requested to report the matter to Kraven, Hickey or Rose of the Auto Club theft bureau, or to police officials.

Humphreys' 1915 touring, green, 23807; Buick, 1914 roadster, dark green, 214254; Buick, 1920 touring, 446824; Buick, 1917 roadster, 440111; Ford, touring, 214253. Persons desiring to see these machines are requested to report the matter to Kraven, Hickey or Rose of the Auto Club theft bureau, or to police officials.

GAYER EXPECTS A BUSY GOLF SEASON.

Ed Gayer, "pro" of the Spalding Indoor golf school, says he can always smell the approach of a golf season. He is requested to report the matter to Kraven, Hickey or Rose of the Auto Club theft bureau, or to police officials.

Ed Gayer, "pro" of the Spalding Indoor golf school, says he can always smell the approach of a golf season. He is requested to report the matter to Kraven, Hickey or Rose of the Auto Club theft bureau, or to police officials.

GRID SUPREMACY TO CALIFORNIA.

Golden State Teams Vanquish All in Northwest.

Best Eleven in East is Still an Unsettled Point.

U.S.C. to Meet Nevada Here Next Saturday.

BY PAUL LOWRY.

After years of watchful waiting the sun of California football supremacy shined on the Pacific Coast. No longer will the universities of the Golden State play second fiddle to the leadership of Washington and Oregon institutions.

When the University of California, 49 to 0, last Saturday at Stanford defeated the University of Washington, 3 to 0, the last of the Northwest's 1920 hopes were turned back.

Between them the Bears and the Cards have beaten every other team in the Northwest, except the University of Washington, which has been members of the P.C.C.

Ever since 1905, when California and Stanford renounced the American game and adopted the near-Eastern game of Rugby, Washington and Oregon teams year after year have been driving the Pacific Coast honors.

In 1915 California forsook Rugby and re-established football as a sound basis at Berkeley. It has taken the Bears six years to get into the winning column. Stanford has come back in two.

The best part of it all is that when the great annual struggle at Pasadena on New Year's Day, it will be a home-bred California team that represents the West against the East. Washington and Oregon, but they will play in the bleachers as spectators.

At the stage of the game it seems that U.S.C. has eleven players up to the standard of the West. Nothing short of a miracle could bring about a Stanford victory on November 20.

U.S.C. has two games to play, meeting the University of Nevada here next Saturday and Oregon at Pasadena on Thanksgiving Day.

Just how much of a show the Trojan side will put on is hard to say, but a postgame game is arranged to be played after the return of U.S.C. to Nevada. The contest is in next Sunday.

The Bears beat Nevada, 19 to 7, this being only one of the few games in which the Mission Baseball League tied off top-heavy scores. If U.S.C. can stop All-American Bradshaw, the ninth and brought victory to California, things ought to be easy for the locals.

The Tackle Day battle between Oregon and U.S.C. can't change the complexion of the P.C.C. race, because the Bears' victory is a foregone conclusion. Today's contest, however, will be a game of the Stanford-California brawl.

In the Middle West Illinois and Ohio State are the only undefeated teams in the "Big Ten." The Bears' victory is a foregone conclusion. Today's contest, however, will be a game of the Stanford-California brawl.

KANSAN DIES OF FOOTBALL INJURY.

EMPORE, (Kan.) Nov. 7. Jack Reeves, 23, fullback for the Kansas State Normal football team, died today of injuries received in the Normal-Washburn game yesterday.

Reeves was paralyzed when his back was twisted during the play. He never regained consciousness.

LINCOLN GIANTS Beat Alexander Baseball Team.

The Lincoln Giants took another rap at the Alexander Giants baseball team at Carroll Park yesterday, winning by a score of 7 to 3.

The colored beauties from the East were the game up early by counting three healthy markers in the second inning and two more in the third.

The Alexander players nipped the ball early and late, but Hubbard, on the mound for Lincoln, scattered the line drive collected from his delivery in a comparatively safe and sane manner. He was particularly keen in the pinches and whiffed ten of the enemy.

Foots and Ross heaved for the Alexander crew and were punched for seven safe blows, two of which were three-ply swats from the bats of Hubbard and Pettus. There were six doubles cast into the going and Hubbard and Pettus each got credit for one of these. Two doubles played decorated the pastime. The score:

LINCOLN GIANTS..... 7.....
ALEXANDER GIANTS..... 3.....

Went 7 11 27 7 Total 23 3 27 13

Score by innings:

Lincoln..... 1..... 2..... 3..... 4..... 5..... 6..... 7..... 8..... 9.....
Alexander..... 0..... 0..... 0..... 0..... 0..... 0..... 0..... 0..... 0.....

Three-hits, Hubbard, Pettus, Truitt, Wood, Ross, and Pettus, all on balls. Alexander's only hit was by Ross in the second inning. Lincoln's only error was by Hubbard in the third inning.

U.S.C. has two games to play, meeting the University of Nevada here next Saturday and Oregon at Pasadena on Thanksgiving Day.

Just how much of a show the Trojan side will put on is hard to say, but a postgame game is arranged to be played after the return of U.S.C. to Nevada. The contest is in next Sunday.

WINDLING SEA TRADE PROVOKES RELIEF PLEA.

Rail Differential Hits Pacific Harbors Hard, While Atlantic and Gulf Ports Show Great Gains.

Telling a tale in little of dwindling shipments from Pacific Coast ports and immense comparative gains by Atlantic and Gulf ports, due, the experts say, to the discriminatory operation of the differential on cargo hauls from the Atlantic to the Pacific seaboard, the Bureau of Foreign and Domestic Commerce has just issued a report on exports from the United States for the fiscal year ending June 30 that probably will be made the basis, it developed yesterday, of a "relief" appeal to Washington.

Of the total exports of an unprecedented value of \$3,111,000,000 during the year, those from eight Atlantic ports reached a value of \$2,058,277,000, those from five Gulf ports totaled \$1,444,352,000, while the total value of exports from four Pacific ports was only \$254,522,493. Moreover, the reports show that the Atlantic and Gulf ports gained exceedingly in both exports and imports, while the Pacific ports suffered a severe loss.

The figures also show that the imports and exports from and to Pacific countries increased to a great extent, whereas imports and exports from and to Atlantic countries suffered a decrease. In other words, this increase in foreign trade with Pacific countries filled the docks of Atlantic and Gulf ports with millions of dollars' worth of shipping which would have otherwise advanced the assets of Pacific ports had there been an equal division of shipping rates to all ports of the country.

SEEKS ACTION.

"There is grave danger that shipping out of Pacific ports will come to a practical standstill unless someone or some organization in the West makes a formal complaint to the United States Shipping Board which would in turn pass its findings on to the Interstate Commerce Commission so that the latter body can establish an equal division of shipping rates to all ports and remove the present discrimination," declared Fred P. Gregson, traffic manager of the Associated Jobbers of Los Angeles, yesterday.

"Due to the increase of 33 1/2 per cent in shipping rates from the Atlantic to the Pacific seaboard and an increase of 40 per cent in rates from Chicago to the Atlantic," he explained, "the exporters of what is known as the 'gas belt' of the East find it cheaper to ship cargo via the all-water route to the Orient than across the continent via Pacific ports. The eastern trunk line railroads also declare that it does not pay them to haul cargo from Pittsburgh to Chicago for a revenue of only 18 cents a hundred pounds.

UNVEIL WORLD WAR MEMORIAL.

Huntington Park Honors Her Hundred Warrior Sons.

Leads West in Move to Make
Heroes' Memory Live.

Legion Chief Voices Warning
Against Enemies Within.

Believed to be the first World War memorial unveiled in the West, a memorial fountain and statue, commemorating the heroism of Huntington Park's 106 or more warrior sons, was dedicated yesterday by the people of that community in City Hall Park as 500 persons looked on.

Projected at a mass meeting of Huntington Park citizens on Armistice Day, two years ago, the memorial fountain dedicated yesterday represents the spirit of those who stayed at home as well as the patriotism of those who went overseas to protect their homes. Sgt. W. Johnson, a New York sculptor, whose home is at Claremont, designed the statue, which is called "Maid of Huntington Park." It is of bronze and stands five feet high upon a cement pedestal in a cement fountain basin, and represents the spirit of the maid whose heartache was protected by the men who saw service in the World War.

Hundreds of persons in the community contributed their mite to make the memorial possible. While men and women gave their dollar, school children contributed quarters, and times to buy the bronze figure and mold the fountain.

W. T. Salvin, former president of the Huntington Park Board of Trustees, was master of ceremonies at the

FOUR HURT IN ODD ACCIDENTS.

Queer mishaps were written into records of the Receiving Hospital.

Queer mishaps were written into records of the Receiving Hospital yesterday. One man fell from a grape arbor and broke his collar bone; Sarah Saylin, aged 4, was hit on the head by a ball bat while playing "one old cat" at her home, 1143 Angeleno street. She suffered a slight concussion of the brain.

Jacob Spillhaus, a cook residing at 211 1/2 Central avenue, told the receiving clerk that a rat bit him upon the index finger of his left hand.

Ines Dominguez of 2522 Elmer street, suffering from contusions of the nose, explained that while riding with B. Dominguez of the same address she bumped her nose on the back of the front seat.

TRAFFIC INFLOW GREATER STILL.

Average is Now Twenty-nine Hundred Persons Daily.

While Household Goods Come
in Decreasing Volume.

Housing Conditions Blamed
for Odd Contradiction.

The flow of people into Los Angeles has now reached the unprecedented volume of 2900 daily. This means an increase of almost 50 per cent over the daily average thirty days ago, and an increase of 194 per cent over that of the same period a year ago.

Railroad, steamship and other statistics, the compilation of which was completed yesterday, show that the traffic movement to Southern California from a distance is on a scale which is exceeding even the most liberal estimates of the transportation companies and that it will probably roll up within a few days an average of 3000 persons every twenty-four hours.

It was thought by those who make a business of studying the question that the practical doubling of the arrivals in August of this year over those of August a year ago was due to the fact that many people were endeavoring to take advantage of the old passenger and freight rates, which were in effect until August 25. Then came the still more remarkable records of September, which not only showed a doubling of the figures for the year previous, but also showed slight gains over the totals for last August, which had up to the completion of the September figures been regarded as artificially created.

WEST COAST MAY BECOME AIR CENTER.

Visit Here of Chief Aero- nautical Officer Considered Significant.

Particular significance is being attached to the visit to the Pacific Coast, and particularly Southern California, of Maj. Thurman H. Bane, commander of the McCook Field experimental station of the United States air service, under whose direction all heavier-than-air aeronautical development of the Army is carried on. It is thought possible that there is an intention on the part of the air service to make larger use of the resources of the Pacific Coast. This is in part borne out by the recent award to the Boeing Aircraft Company of Seattle of a big contract for twin-engine armored airplanes.

"QWL" AGAIN TO FLY BY NIGHT.

Southern Pacific Restores the Favorite Valley Train.

Inaugurates Extra Service
from Here to Capital.

Will Also Start a Daylight
Ride Over Tehachapi.

Further improvement in its passenger train schedules will be made by the Southern Pacific, effective the 14th inst., says an announcement made yesterday by General Passenger Agent McGinnis.

Of particular interest to Los Angeles travelers is the restoration of the popular "QWL" to its former service, the inauguration of a new train running through to Sacramento and a daylight train up the San Joaquin Valley.

The "QWL" will again leave at 9 p.m. arriving in San Francisco at 3:30 next morning, operating as usual over the San Joaquin Valley line and shortening its present running time forty minutes. This train will also leave San Francisco at 9 p.m., arriving in Los Angeles at 5:30 a.m.

The new Sacramento train will leave Los Angeles at 6:15 p.m., running over the valley line through to Sacramento, arriving at the capital at 10:15 a.m. Southbound a new train will leave Sacramento at 4 p.m. for Los Angeles, arriving here at 8:15 a.m. This improved service is made necessary by the increasingly heavy travel between Los Angeles and Sacramento and will be a great improvement.

IMPORTANT ADDITION.

Another important addition to the San Joaquin Valley line service will be a train leaving Los Angeles at 9 a.m. for Bakersfield and Fresno, serving the territory between here and Fresno and offering a daylight ride over the scenic Tehachapi affording mountain scenery that the night traveler scarcely realizes as existing, and which can be favorably compared with mountain scenery anywhere.

Other changes out of Los Angeles will be the leaving of No. 108 via the San Joaquin Valley at 10 p.m. instead of 10:20 p.m., which, in addition to the San Francisco equipment, will carry a Bakersfield sleeper; No. 57, via the Santa Paula branch, will leave Los Angeles at 10:15 p.m. instead of 10:30 p.m., and No. 55, another Santa Paula branch train, will leave at 10:15 a.m. instead of 10:30 a.m.

Mr. McGinnis also announces important changes in train service out of San Francisco for the north and east. The "Shasta," a new train, will leave San Francisco at 4 p.m., arriving in Los Angeles at 10:15 a.m. It will carry through sleepers to Seattle, arriving in Seattle at 8:30 a.m. sleepers leaving Los Angeles-Portland, Tacoma and Seattle through to Seattle on this train, affording fast service for Los Angeles-Portland, Tacoma and Seattle travel.

The "Overland Limited" will leave San Francisco at 11 a.m. instead of 10:30 a.m.

(Continued on Ninth Page.)

Youngest Grizzly Dies From Illness Caught in France.

Leland Stanford Schmidt, who before being sent overseas, was known as the youngest enlisted man in the Grizzlies at Camp Kearny, died early yesterday morning, after a two-months' illness, the result of an influenza attack contracted in France. He was 23 years old and the eldest son of Mr. and Mrs. Eddie Schmidt, 422 Broadway, Los Angeles.

Schmidt enlisted in the "Grizzlies" at Camp Kearny and remained with that organization until the quartermaster department was transferred to the 42nd Division, with which he was stationed at Le Mans, France. He was a member of the American Legion, Services will be conducted at 1:30 p.m. tomorrow in the funeral chapel of Breese Brothers.

The "Maid of Huntington Park" and a Votive Offering.
Dr. Wesley Thompson, veteran of three wars, is placing a wreath at the base of the fountain.

dedicatory services yesterday. He introduced Rev. A. L. Baker, an army chaplain, who delivered the invocation, and then called upon Mrs. Edith G. Hubbard, club woman and member of the memorial committee, for a short history of its creation.

The address of the afternoon was delivered by Dep. Dist. Atty. Fitts, State commander of the American Legion, who declared that there is plenty of patriotic work at home for those who come back from overseas.

"Today we face a greater crisis than the inside than that which engaged us from without three years ago," said Commander Fitts. "Our common enemy today goes from place to place, murdering, terrorizing, burning and sowing seeds of discord. I refer to the I.W.W., for whom there is no place in America. We have no room for Bolshevism and I.W.W.ism. Henceforth our every step should be weighed in the light of pure loyalty to our country."

At the conclusion of the exercises, Dr. Wesley Thompson of Huntington Park, a veteran of three wars, laid a bronze wreath of victory at the base of the fountain. Dr. Thompson served through the Civil War with the Eighty-seventh Indiana Infantry, and was a medical examiner with the Spanish-American War. During the World War he served his country in the U. S. public health service.

The names of all the Huntington Park men who responded to the country's call during the World War are graven upon four bronze tablets,

created in that low relief held out a special inducement to travel during August.

The October figures came in with an even more significant story. Last month averaged 140 per cent above October, 1919, in the number of daily arrivals.

October also witnessed the arrival of many people by automobile. There were no facilities for checking such arrivals and so this very important number of persons does not appear to any considerable extent in the calculated volume of incoming traffic.

Strangely, while there has been a large increase in the inflow of persons to this section, there has been something of a decrease in the amount of household goods arriving. On this point the ever-ready freight increase argument is adduced. It being pointed out that many people who were going to come out here in the autumn shipped their goods in July and August, or even in June, to avoid the higher rates. Carriers insist that Los Angeles should face the fact that the falling off in the arrival of household goods is a result of the belief, which is becoming general in the East, that the person cannot be sure of finding an unfurnished house or apartment here, and that for that reason many arrivals who would otherwise bring their goods with them have either stored their property in the East, or have disposed of it. They also declare that such an arrival is not nearly as likely to stay here as in one who brings his goods with him.

Reports also indicate that organizations in distant cities are making the most of the unfortunate housing situation in Los Angeles and are giving the utmost publicity possible to it.

LIVING QUARTERS TO RENT.

If you have available any living quarters which you would be willing to rent at reasonable rates, in order to relieve the present acute housing shortage, you are requested, as a matter of public service, to fill out the subjoined blank and mail it to the Housing Bureau, Los Angeles Chamber of Commerce.

Of Interest to You Ten Questions and Answers Regarding the Saxophone

- 1.—Can anyone learn to play the Saxophone?
Ans. Yes, it is not an age limit—any "it" to study.
 - 2.—Without any knowledge of music whatever, how long would it take to learn?
Ans. Popular melodies can be played within 10 days; and if you read music, much sooner.
 - 3.—What model is the most popular?
Ans. The "C" Melody, because transparent. Some make it unnecessary with this model.
 - 4.—What kind of music is used with the "C" Melody?
Ans. Any sheet music, and only one note at a time is read and played. Leaving Los Angeles-Portland, Tacoma and Seattle through to Seattle on this train, affording fast service for Los Angeles-Portland, Tacoma and Seattle travel.
 - 5.—After one has learned, does it require a long time to become a proficient player?
Ans. No, it does not require hours of tedious practice like other musical instruments.
 - 6.—Would you recommend a Saxophone for a school boy or a school girl?
Ans. By all means—it is a wonderful accomplishment for a young person to play the Saxophone, and so easy for them to master the instrument. It promotes deep breathing, a fact in itself that is worthy of consideration.
 - 7.—Can a "C" Melody Saxophone be played in an orchestra, with the piano or with the violin?
Ans. Yes, very successfully.
 - 8.—Is it necessary for me to call of your store to hear the instrument demonstrated?
Ans. We have several demonstrators at our store all day, but will gladly send one of them to your home in the city any day or evening—just phone the Saxophone Department for appointment.
 - 9.—Can I purchase the instrument on terms?
Ans. Yes. We quote very liberal terms: a substantial first payment, balance monthly.
 - 10.—What makes it the best Saxophone to purchase?
Ans. The "Rosenberg True-Tone," the best in the world. Ask any good musician.
- FREE**
Catalogue of Rosenberg True-Tone Saxophones. Call or write for your copy. We are the exclusive agents for True-Tone Saxophones.

Soft Coal Production

WASHINGTON, Nov. 7.—The production of soft coal in the United States for the year 1919 was 12,528,000 tons, the maximum for the year, according to the public today by the Geological Survey, which reported that the production during the year was 216,000 tons from the West.

New Issue of Coal
WASHINGTON, Nov. 7.—The new offering of Treasury bonds for the purpose of raising money for the war effort, which was made public today, was 100,000,000 bonds, dated November 15 and 16 of next year.

The People and Their Daily Troubles

DOROTHY DIX TALKS

For That Tired Feeling

BY DOROTHY DIX.

A young woman wants to know what to do when you've got that tired feeling and cannot stop and rest.

She says that she is weary unto death of her job; that she has come to hate her typewriter as if it were some cruel god before which she was offered up daily as a living sacrifice; that she could assassinate with joy her good, kind employer every time she takes his dictation and counts how many chins he has, and that she has neither pride nor interest in her work and wonders that she was ever keen and ambitious about it.

She knows well enough that she needs rest and change and to get away from her desk for a while, but the remedy for her nerves is as far beyond her reach as the port wine cure is beyond a pauper. She has a mother and a little sister dependent on her. Her little white hands must fight the wolf away from the door, and so she asks what she can do to get back her rest in life and her enthusiasm for her work.

Your case, little sister, is a hard one, but it may comfort you to know that your experience is the common lot. It is only the very few who are lucky enough to be able to rest when they are tired and to seek new and pleasant flavors when their lives become dust and ashes in their mouths.

There is not a business man in the world who does not have his moments when he is so worn and weary with the strain of planning new selling campaigns and worrying over incompetent subordinates and the anxiety of financing fresh enterprises that he is tempted to throw up the whole affair and go into bankruptcy.

There is not a mother who has to nurse and care for her children who does not get so sick and tired of walking the colic and washing little faces and wiping little noses, and listening to warlike mother and settling quarrels, and buttering bread and picking up scattered toys that she does not at times feel that she hates her own children and that she would give anything on earth to get beyond the hearing of her babies' cries.

No matter what we do, we all have this reaction against our occupation, and our hours when the very thought of entering the treadmill again, and going the same monotonous round for the millionth time, fills us with a physical as well as a mental nausea.

There comes the test of the stuff of which we are made. The washings give up, and sink into failure. The strong girl up their loins a little tighter, and take a struggle-hold on their courage, and go on to success.

Because you are tired, little sister, let yourself believe that you are at the end of your resources. The runners in a race will tell you that when they have gone a certain distance they are almost overcome with exhaustion. Their feet drag, and their breaths stop, but if they force themselves on, they

MAKING MORE MONEY.

Failure Brings New Business Into Existence, Which Provides a Hand-some Income.

Some years ago the Misses Celine, Mary, Lydia and Minnie Higer came to Waynesboro, Pa., from a farm in Illinois, determined to make a success in one of the lines in which women, from time immemorial, have found to their liking—a dressmaking establishment. The business dragged its way along without any conspicuous achievement until a combination of the economic era which carried the early days of the war and the illness of the oldest sister precipitated the crash.

"My other two sisters," as Miss Mary Higer explains, "felt unequal to the demands of building up the business again, particularly when this was coupled with the care of an invalid sister. More profitable work of some kind had to be found in order to meet the necessities of the family."

"The thought of making candy as a commercial enterprise came to me as a sort of inspiration. Some years before we had run across a splendid opportunity to make a profit from the sale of candy, and I felt that, by further experimentation and a study of candy-making as an art, we could make a sale on any market."

"At first we sold our product directly from the factory—our kitchen—with a number of stores to handle the candies and the venture proved so profitable that we decided to make a matter of capacity, for our business seemed to be enthusiastic about bigger candies and the orders filled them. We have long ago paid off all our debts and the future looks rosy. In the meantime, the candy business has made both ends meet with the aid of a kiosk and a stand."

at the poor, bedraggled creatures of the streets, skulking in the shadows, just that but for your ability to make your own living you might have belonged to that sorrowful shelterhood.

You cannot stop to rest because of the helplessness of your family who are dependent upon you. It is hard that your slender young shoulders must bear such heavy burdens, but when you think of your mother in the poorhouse, your little sisters in the orphan asylum, and your father in the workhouse, you will not make your own home-fires burning?

And, lastly, for that tired feeling, shake up your self-conceit, and take a good strong dose as often as required. Quit looking upon yourself as a martyr, and get at your own work as a conqueror. No woman in the world has such a right to be proud of herself as the girl who is able to hold down a good job and still be able to wear on her breast the feminine cross of the Legion of Honor.

Speed up your work, little sister, try to do it better, and be glad you've got to do it. That is the sure cure for that tired feeling.

"Have you lost faith in baseball players?"

"Certainly not," replied the genial old gentleman. "A crowd of youngsters persuaded me to umpire a game the other day, on a vacant lot, and their sincerity was so great I have shadowed them ever since." —(Birmingham Age-Herald.)

O BILL, LOOK AT THE CUTE LITTLE HAT I PICKED UP—AND CHEAP! YOU'D NEVER IN THE WORLD GUESS WHAT I PAID FOR IT!

CAN YOU IMAGINE IT, BILL? A HAT FOR ONLY 12 DOLLARS!

O I DON'T KNOW! I JUST COPPED A NEW KELLY MYSELF—THAT'S JUST WHAT I PAID FOR MINE—12 DOLLARS!

12 DOLLARS FOR A HAT? YOU DURE! IT! GRACIOUS! YOU'RE EXTRAORDINARY!

LETTERS TO "THE TIMES."

Blames Prohibition.

LOS ANGELES, Nov. 6.—[To the Editor of The Times:] Prohibition has placed Los Angeles in a predicament. The liquor traffic by bootleggers goes on, to say nothing about home brew, and the city loses three quarters of a million dollars in revenue. Crime and traffic accidents have increased over 50 per cent.

Taxes on real estate and personal property have already increased so much that the people were compelled to vote down the proposed charter amendment raising the city tax limit above \$1 per \$100 valuation.

If prohibition had been enacted along reasonable lines and had permitted the sale of light wines and beer, the city could have an additional income from licenses sufficient to meet its expenses, and the bootleggers and moonshiners would not be waxing rhapsodically over their trade in jackass brandy.

How can anyone expect to enforce a law like the Volstead Act, which is contrary to the laws of nature? As long as fruit juices placed in a wooden or earthenware vessel will ferment and produce alcohol, and water freezes at a higher temperature than alcohol, we will always have wine and brandy. In cold climates the natural temperature will freeze out the water, leaving the alcohol in liquid form, which can be changed to alcohol by fermentation, as well as abolish sugar itself.

The voice of the people in this State against the Prohibition Act shows what they think of such extreme measures as the Volstead Act. As soon as this is impressed on the politicians, who have caused us extreme prohibition views in the belief that they are

popular, we will see them liberalizing the Volstead Act to legalize wine and beer. Then, and then only, will we be rid of both the saloon and the bootlegger and redeem ourselves from high taxation.

F. C. FINKLE.

Give It a Trial.

LOS ANGELES, Nov. 6.—[To the Editor of The Times:] Your editorial of the 6th inst. in regard to the enforcement of the Volstead law has the right ring and will receive the endorsement and approval of all thoughtful patriotic people.

All laws should be enforced vigorously and impartially as long as they are on the statute books, and if the results are beneficial they should be retained, but if results are vicious they should be repealed, and until a law has been given a fair trial we cannot judge intelligently whether it is good or bad.

It surely would not be wise or safe to permit lawless inclined persons to violate the conditions that they are not, especially where their financial interests are involved. If one cannot can violate the law, and get away with it another class of criminals will be encouraged to try it, and then another, and our government will soon be a lawless one, and we will have a nation of anarchy and bomb throwers without protection.

Now that prohibition has been included in the Constitution by due process of law it should be given a fair trial, and if results are injurious we will soon know it and it can then be repealed, but until that is done it should have the vigorous support of all good citizens, and we should have a nation of anarchy and bomb throwers without protection.

GEORGE E. MOREY.

A Wise Choice.

LOS ANGELES, Nov. 7.—[To the Editor of The Times:] After having carefully studied both the character and fitness of the man who has been chosen by such an overwhelming majority to guide our great ship of state through the most turbulent waters for the next four years, I am confident that all thinking men and women made a wise choice in selecting Senator Harding.

His first utterance after having been assured of his election was that a divine providence would guide him, and that he intended to play his part in the great task before him.

The sentiment of our President-elect is most surely in direct contrast to the expressions of the man who has been chosen to guide our great ship of state through the most turbulent waters for the next four years.

President-elect Harding most surely reminds us of former President McKinley, in making the choice particularly amiable by both words and deeds the great Lincoln, especially in his fondness for the common people.

Our nation has certainly grown too large to be ruled by an individual, and we may be sure that when President-elect Harding takes his chair on the fourth of March next that both houses will unite and co-operate with him in demonstrating that this government of ours is not a mockery but a republic, a government of the people, by the people and for the people as a whole.

R. D. RICHARDS.

Wants a Rest.

LOS ANGELES, Nov. 4.—[To the Editor of The Times:] Why do the newspapers of Los Angeles, your own great city, include in their columns to try all of the District Attorney's cases in the paper? Is the District Attorney incompetent? Is he unable to secure a conviction unless the public by reason of adverse newspaper publicity is prejudiced before the jury is drawn?

It is, to my mind, a disgrace that the newspapers of this city are persecuting Mrs. Peete. Whether the woman is guilty or not does not enter into the matter, and the newspapers should not, in the name of justice, insist on printing day in and day out, stories of the woman's life.

Mrs. Peete is charged by the District Attorney with the murder of J. C. Denton. Whether she has led a loose life, whether she has received money and presents from men, whether she is a Texan or a Bostonian, is not applicable at all.

For weeks and weeks the papers have printed columns and then some more columns regarding the woman, and there has been nothing new. One day The Times, and the rest of the papers for that matter, declared Mrs. Peete's father's uncle was a unionist; the next day it is declared that the papers declare that Mrs. Peete's mother had red hair, and then this is denied. If there is a shortage of newspaper, as you say, why under the canopy of the skies devote so much space to an unjust, un-American propaganda, which can have but one object in view, to keep the public in the dark, any one of whom may be chosen a juror at her trial?

HOME GEDDEN.

Wouldn't Carry Double.

"What do you mean by jumping off your horse?" roared the angry director. "You have ruined the entire reel by that fool stunt!"

"It was this way," replied Currier, the newspaper editor, "I was in the stirrup, I know he won't carry double, so I saw I was going to get up in this here saddle, it's time for me to get out of it." —(Film Fun.)

GASOLINE ALLEY—IT DOES MAKE A DIFFERENCE

QUESTIONS ANSWERED

Question: Will you give a recipe for apple butter as soon as possible?

D. R. H.

Answer: The Department of Agriculture recommends that you measure the apples, wash, slice into small pieces, and for each bushel of apples, add four gallons of water; boil until fruit is soft and put through fruit press or rub through a sieve. To the pulp of each bushel of apples add two gallons of cider that has been boiled down to half its original volume. Bring to a boil and add twelve pounds of sugar. Cook until almost of the desired consistency, and spices, cinnamon and cloves to taste. When the butter is thick as desired, place in hot containers and seal immediately.

I am curious to know if glass disintegrates when buried in the ground.

K. H.

Answer: The Bureau of Standards says that glass would slowly disintegrate when buried in moist soil. The action on the glass would be due primarily to water and alkali. This was observed annually and soon spread through the New England colony. In 1817 New York adopted it as an annual custom. In 1854 President Lincoln appointed a day of thanksgiving, and since then the Presidents have issued a Thanksgiving proclamation.

Question: How is pipe galvanized?

E. Y. U.

Answer: Pipe is galvanized by giving it a coating of zinc. This is accomplished by drawing the pipe through a molten bath of zinc. Un-

galvanized pipe is known as black pipe.

Q: What is a pipe made of?

A: This is a name given to a pipe made of iron, steel, or copper.

Q: How are pipes made?

A: Pipes are made by rolling sheets of metal into a spiral and welding them together.

Q: What is a pipe used for?

A: Pipes are used for carrying water, gas, oil, and other liquids.

Q: What is a pipe made of?

A: This is a name given to a pipe made of iron, steel, or copper.

Q: How are pipes made?

THEIR GOLDEN WEDDING of Comic Two Revives Memories.

James McIntyre (left) and Thomas K. Heath.

For many seasons a vehicle for the peculiar talents of McIntyre and Heath. Here is a line or two from "The Georgia Minstrel":

THEIR NEW PLAY.
[McIntyre shuffling up to Heath, the latter dressed like a minstrel manager with all of the money in the world, McIntyre, the picture of grief, and with a voice of Southern cadence that would tempt a mocking bird out of the trees.]
"Didn't you tell me I was a funny man," says McIntyre, in a tone of self-reproach.
"Certainly did," comes back Heath.
"You said I could make a hit on the stage, that I was a comedian; that I would make a hit—you said that, didn't you?" says McIntyre, with tears in every quaver of his voice.
"Yes," returns Heath in terms of reproach.
"You didn't tell me I must walk back; that I would have nuthin' to do, didn't you nuthin' about dat, did you?" McIntyre keeps shuffling up to Heath to impress the facts upon him.
And then McIntyre, with a voice that seems to almost choke with tears, says: "I suddenly wish I had stayed in that Liberty Stable." The way he says it has made him one of the richest men in the amusement game.

MORE OLD-TIMERS.
There will be another old-timer in the McIntyre and Heath play—Dan Quinlan, the well-known interactor, who has sat in the middle of more minstrel companies and asked more down questions: "Can-you-tell-me-the-difference-between?" etc., etc., than any man before the public. Dan is now in the real show, but for many seasons he was on vaudeville time with his partner, Mrs. Quinlan, who used to write the monologues for Fields, and with Dock Quigley, the eccentric dancer, now dead, they built up the program.
Dan was never in the circus business, but it would be worth any man's dollar to see him stand on the seats and make the announcement about the concert following the regular performance. "La-dee-la-dee-ty-men, the circus performance is just one-half over. At the close of the entertainment, immediately adjoining the large arena, will be given one of the finest shows in the world, consisting of songs and dances, banjo solos, negro eccentricities, etc. 10 cents, a dime, one-tenth of a dollar," etc. This, with the grace of a circus, and the voice of a minstrel, Dan will be there with the bells.

OBSERVANCE OF ARMISTICE DAY IS URGED.
Mayor Snyder yesterday issued the following Armistice Day proclamation:

"In commemoration of that great day when the armistice was signed and peace again restored to the warring nations in the great World War, Thursday, November 11, will be fittingly celebrated in Los Angeles.

Gov. Stephens has issued a proclamation declaring Armistice Day a legal holiday throughout the State, and I wish to urge all employers of labor in Los Angeles, who can possibly do so, to close their places of business on that day and join in and participate in the celebration which has been prepared for the occasion.

The Intersect Council of the American Legion has perfected plans for a military parade through our downtown streets, forming at 10 a.m. and Temple streets at about 10 a.m., and marching down Broadway to the ball park at Washington street, where honor will be paid to the service men.

In tribute to these valiant men who so nobly served us in our great cause, and as mark of our patriotism, I appeal to all our citizens to display their American flags, and to show their appreciation of this day by joining in the ceremonies.

Protect Your Investment

Why not insure against loss from the care and cost of your teeth?

Only Nature can give you such teeth to start with; but the skill of a good dentist and reasonable daily care on your part will help to make even poor teeth presentable.

PEBECO TOOTH PASTE

Have a good dentist go over your teeth twice a year, and use Pebecco Tooth Paste regularly twice a day. Pebecco is a scientific blend of ingredients which promote white, polished teeth, firm, healthy gums, a sweet breath, and a hygienically-clean mouth. Nothing better for counteracting unfavorable mouth acids.

Pebecco is sold by druggists everywhere

Ontario Residents Wedded Sixty Years

DIAMOND ANNIVERSARY MADE OCCASION FOR LARGE RECEPTION.

Believing the oft-heard declaration that happy marriages are a thing unknown in this day of divorces and marital difficulties, Mr. and Mrs. Casper Lambert last week celebrated their sixtieth, or diamond wedding anniversary at their home, 282 East Fourth street, Ontario.

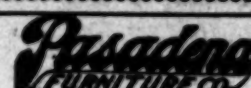

The celebration was planned by Mr. and Mrs. Lambert's eldest daughter, Mrs. Laura Halfhill, who makes her home with them, and was attended by more than 100 friends. Members of Ontario Post, Grand Army of the Republic, and the Ontario Woman's Relief Corps, to which organizations the aged couple belong, were there as were also many of the friends they made in the days of their early married life in the Middle West.

Among the guests was Mrs. Mary Doty of Los Angeles, a school chum of Mrs. Lambert, and Mrs. Doty's son-in-law and daughter, Mr. and Mrs. Tim Spillacy of Los Angeles, only living sister of the bride of sixty years, was also present.

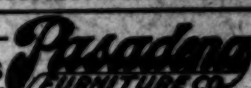

Mr. and Mrs. Lambert were married at St. Mary's, O., on Oct. 20, 1860, the bride having been Miss Josephine Phillips before her marriage. In the following September Mr. Lambert enlisted in the northern army of the Civil War and for three years did not see his bride or less than a year, although he carried a tiny photo of her throughout the long campaign. At the end of three years, Mr. Lambert was mustered out, only to enlist again to be absent for another year.

Three children of the couple joined in the remarkable celebration. Mrs. Halfhill of Ontario, Mrs. C. G. Blaney of Roseburg, Or., and J. G. Lambert of Long Beach.

ON AUTO THEFT CHARGE.
Arrested on suspicion of having stolen a Buickmobile roadster belonging to E. H. Holten of 1217 Ocean avenue, four men who gave their names as Joe Webb, Bennie Garcia, Joe Drifone and John Bolton, were arrested in San Diego early yesterday and returned to this city where they are now in jail. Mr. Holten's car disappeared Saturday night.

Ten Floors in a Location that Enables Us to Sell for Less

Rugs and Draperies Underpriced

Because of special values offered throughout our ten-floor stock it is now possible for you to furnish a home complete at savings of 10%, 25%, 33 1/3% and 50% Comparison will prove that your savings are really more than this because our regular prices are based on cash and a low overhead expense due to our easily accessible but comparatively inexpensive location. PEN POINT BY THE STAFF

What has become of the Christmas?

With several million men and women, the Christmas season is now upon us. Almost anybody can tell you about how it is passed.

The election being over, the men get down to work. That is the story of all our troubles.

Now we know where all the Democrats were last Tuesday somewhere holding a meeting.

Something else to worry the twentieth amendment, to be sure, but it is not the cause of our troubles.

It hardly lies in the hands of the owner of an automobile to be the cause of the increase in the retail price of goods.

It will be a long time before the full dinner pail with the spoon of poverty will be the slogan of the party.

Another thing, did A. M. ever light on his feet? Many were down to a frazzled high cost of living.

There is nothing in this business that does not have a certain amount of a what wail has to be made at intervals.

We can easily recall the faces of the young women who were on the street cars on account of the steps, but nothing of these days.

With the dissolution of the Federal Fair Price Commission, the government is no longer as effective as the other agencies.

Want to buy a well-regarded perfectly good shipyard? Look at the one for sale. It cost the owner \$70,000, but the price is shaded a bit if you can see it.

Under the quickening of the sun, the American people are all over the German trade, but not the most recent news.

If it comes down to a shirt or starting a count, don't neglect the fact that a bank account and the shirt are not the same.

Some men's ideas of being confined to a hospital, if they lose \$1.75 in a poker game, as the cards begin to wrong way they can be draught on the bottom of the sea.

One of the needs of this plan by which the highest price can be secured for one has to sell, and the best way to get a platform would be to be executed by the school.

There is a general opinion that there is not as much good as there used to be. It is true, but one of the best of the deteriorated of the out of sight in price.

With the women taking the Presidential election, it is a pity that a good man to give office hereafter. If the should it not have some of social? We would like to see the consumer.

The statisticians in the have figured out that the been great reduction in the price, but it is the thing that the most of us is a drop in the tail market. It is a way from the wholesale to the consumer.

MOTHERHOOD WOMAN'S RIGHT

How Lydia E. Pinkham's Vegetable Compound Helps to Make Women Normal.

Washington, Ind.—"I was in such a condition that I never expected to have children, and my aunt advised me to take Lydia E. Pinkham's Vegetable Compound. It improved my health and restored a normal condition of my system so that I now have a fine baby. Until she was about a year old I was very nervous, and all the time thinking something terrible was going to happen. If I heard any one coming, my heart would beat fast and I wanted to run. So I took the Vegetable Compound again and it helped me wonderfully. You may publish my letter, as the medicine is surely true."—Mrs. Iva Barry, R. E. No. 4, Box 24, Wamsutter, Ind.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published.

In many other homes, once children, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull aches and it would split, when the little muscles on your temples and neck, it draws out the inflammation, soothes every pain, usually giving quick relief. Musterole is a clean, white, odorless, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, cold, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, headache, pains and aches of the back or joints, sprains, sore muscles, sprains, chilblains, frost-bite—cold of the chest (it often prevents pneumonia). It is always dependable. 50c and 60c jars; hospital size \$2.50.

DIZZY?

Nervous, headache, dizziness, "sea" sickness, vertigo, etc. Cleanse the system of poisons with Musterole, pleasant, invigorating and quickly relieves, demonstrates of circulation and nervous system. Take any time. —\$1.50 for large bottle.

ENO'S 'FRUIT SALT'

For Irritated Throats

Take a tablet and avoid candy—this does the same. It soothes and cleanses the system. You get it instantly by using Eno's.

OTHERS SUFFER FROM RENT HOGS

Need Protection of State Law, Says New Yorker.

Start Drive for Community Playhouse in Pasadena.

Police and Firemen Attend Bible School.

(LOCAL CORRESPONDENCE.)

PASADENA, Nov. 7.—"Pasadena, Los Angeles and other Southern California cities are having the same difficulties with profiteer landlords and rent-hogs in general that New York City had nine months ago; the people of California ought to demand a state law to bring them relief from this greed," said J. M. Campbell, noted New York business analyst, who is a winter resident of Pasadena, in an interview here.

In New York, said Mr. Campbell, landlords were entitled to increases of perhaps 25 or 30 per cent; they were not satisfied with that, they wanted 100 to 250 per cent. "The same greed in people who control houses and apartments is now manifest here," said Mr. Campbell, "and if the rent-hogs do not watch out, their greed will destroy them, as it did the New York landlords. For the New York State law was made retroactive and landlords had to give back all increased rent over 10 per cent."

Mr. Campbell's statement indicates that winter residents, as well as permanent renters, are "peevish" at the rents for houses and apartments demanded by the profiteering landlords. He says the winter residents resent the gouging as much as the regular residents. Recently there have been a number of instances where landlords virtually evicted regular renters by boosting prices to prohibitive heights, in the hopes of plucking visitors for the winter. Bungalow courts and apartments have been bought up for this purpose, rents being boosted from \$10 a month to \$250 and \$300 a month.

Mr. Campbell is spending the winter in California to make a basic survey of the motion-picture industry for New York financial interests.

SEEKING NEW MEMBERS. As a preliminary to the building campaign to secure a permanent theater for the association, the Pasadena Community Playhouse Association has begun a movement to secure 1000 active members by January 1. A committee has been appointed to take charge of the drive, consisting of Miss Eloise Sterling, chairman; Mrs. Walter Raymond, Fisher H. Joy and Miss Helen Brown.

FORCE AT SUNDAY SCHOOL. The Pasadena police "force" and the Pasadena Fire Department attended Sunday-school today en masse. Both departments mustered all hands and, headed by Chief W. E. McIntyre of the police, and Chief E. F. Copp of the firemen, attended a morning Bible class conducted in a local theater by the united brotherhoods of a score of evangelical Protestant churches. Rev. Freeman, pastor of Pasadena's Presbyterian Church, was the speaker.

PROFESSOR WILL SING. Professional singing as a means of instructing a class will be demonstrated at the Pasadena Evening High School Tuesday night when Prof. Emory Foster will sing five songs to assist in interpretation and discussion of the war poets before the contemporary literature class. Prof. Foster is a member of the English department of the high school and is also a singer of note.

Visit the famous Busch Gardens. Open benefit Pasadena Hospital. (Advertisement.)

VENICE GAY AGAIN.

Threat Takes on Old-Time Form After Kinney Funeral.

(LOCAL CORRESPONDENCE.)

VENICE, Nov. 7.—Venice awoke today after a three days' rest in respect to Abbot Kinney. His funeral, which died last Thursday. Though crowds were comparatively small, due to the cloudy weather, amusement concessions were again with the usual gaiety.

For the first time in its life of fifteen years Venice was closed, its pier and rides and concessions dark and unlaughing. Thursday, Friday and Saturday.

"Now that the period of mourning is over, Venice will resume her natural aspect of joy, never again to be darkened, which was one of the last wishes of Mr. Kinney," said Mayor A. E. Coles today.

MAKE FINAL PLANS FOR ARMISTICE DAY.

SANTA MONICA, Nov. 7.—Frank J. Tyrrell, editor of Pasadena, will give the Armistice Day address at the Ocean Park band plaza November 11. Business men of Santa Monica have appointed an arrangement committee who are working on the monster parade that the city will present on that day.

Following the service at the church there was a banquet at the Contemporary Clubhouse. A. S. Maloney presided and speakers were Mayor A. E. Coles of Redlands, Richard Welch of Riverside, Rev. Father John Hagerty of Riverside, Dr. E. J. Erlinge of Redlands, Father Fitzgerald, Senator Leman M. King, W. Joseph Ford of Los Angeles and Bishop Cantwell. Music was furnished by Harold Scott and his orchestra. Miss Natalie Dalton and E. J. Albright.

ELABORATE SERVICE AT REDLANDS CHURCH.

POPULAR PRIEST INVESTED WITH ROBES OF HIGH OFFICE.

(RECEIPTS DISPATCH.)

REDLANDS, Nov. 7.—The most solemn Catholic service ever held in Southern California outside the cathedral of the diocese was held in the Church of the Sacred Heart here this afternoon, which invested in Rev. Father Thomas J. Fitzgerald, for more than a quarter of a century the pastor of the church and for several years dean of this deanery, the title of Monsignor. There were more than fifty priests and prominent members of the laity from Los Angeles and other California cities here for the service.

The celebration opened with the service of investiture at 4 o'clock, at which time Rev. Bishop John J. Cantwell of the diocese of Los Angeles and Monterey delivered a strong address, in which he spoke of the benign influence of Father Fitzgerald on the community and the effect such lives have especially at this time of stress and peril.

Following the service at the church there was a banquet at the Contemporary Clubhouse. A. S. Maloney presided and speakers were Mayor A. E. Coles of Redlands, Richard Welch of Riverside, Rev. AFTER SIXTY YEARS.

Venerable Couple Celebrate Marriage Anniversary at Whittier.

(LOCAL CORRESPONDENCE.)

WHITTIER, Nov. 7.—Surrounded by sixty children, grandchildren, great grandchildren and friends, Mr. and Mrs. Joseph C. Votaw of 124 North Washington avenue, this afternoon celebrated their sixtieth wedding anniversary at the social rooms of the First Friends Church. Following an elaborate wedding dinner a beautiful program was given and the aged celebrants again stood up, joined hands and with firm voices repeated the same vows by which they "married themselves." In old-fashioned Quaker style, sixty years ago.

Mr. and Mrs. Votaw were married in a country Quaker church in St. Joseph county, Michigan. "It was a beautiful day," said the bride of sixty summer, "but snow was on the ground. It was just after Lincoln's election. But we had no roses," she added, as she looked down on the beautiful large bouquet of roses which had just been presented to her.

Mr. Votaw is 84 years of age, his bride is two years his junior. They were born in Columbiana county, Ohio. Following their marriage they moved to Oklaoma, Iowa, where they resided thirty-five years. They resided five years in Oklahoma and five years in Wichita, Kan., coming here ten years ago. Of their seven children six survive, also twenty-two grandchildren and ten great grandchildren. The children are Albert, Fred, Oscar and Irwin of Fresno, Kan.; Elmer, Los Angeles; Meritt, Whittier; Mrs. May Betzer, Whittier.

READY TO START AT BIG RACE MEET.

HORSES ARRIVE AT TIJUANA—CONFESSED SMUGGLER NEAR DEATH.

(LOCAL CORRESPONDENCE.)

SAN DIEGO, Nov. 7.—Six carloads of horses from the East arrived here today, for the Tijuana race meet which opens on Thanksgiving Day. A carload also arrived from Kentucky belonging to H. Tullett, among which was last winter's champion 2-year-old, Ike T. Judge Leon Wings, who is to be judge of the Tijuana meet, and said to be the youngest racing official in the United States, arrived here yesterday and visited the track. Hundreds of carpenters are at work on the plant repairing and improving the grandstand and buildings.

E. E. Malors of Shreveport, La., is on the way with three carloads of horses for the Mexican track, and many other horse owners are on the way with horses.

SMUGGLER NEAR DEATH.

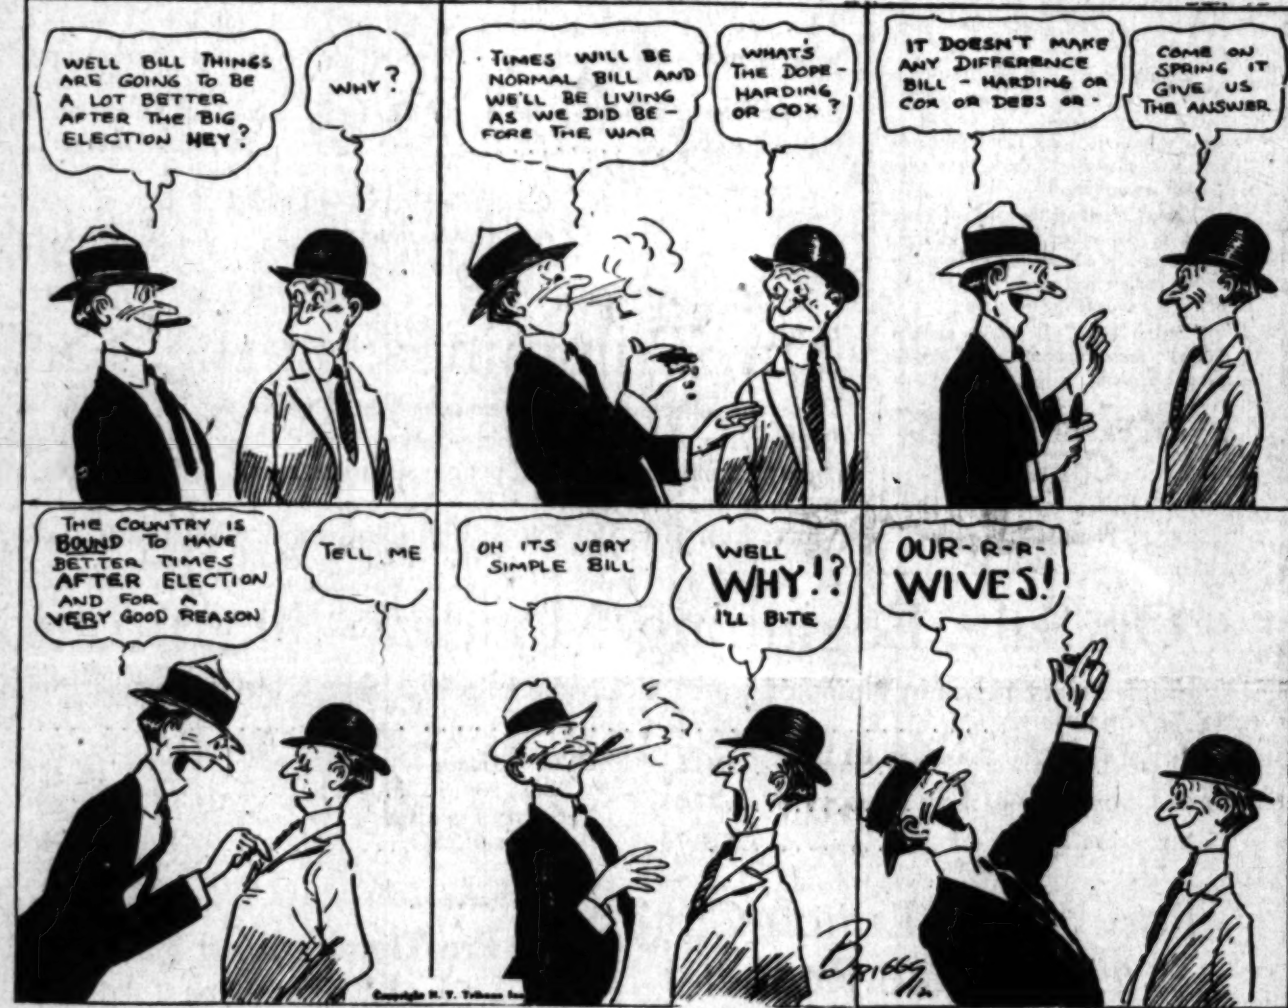

Albert Sedgwick, self-confessed whiskey smuggler, who was shot at the Tia Juana border line Friday night by Immigration Official Fred Buck, is lingering between life and death at the County Hospital.

Sedgwick claimed he was an immigrant officer himself when Buck stopped him just beyond the border and the smuggler then reached for his gun. Buck caught Sedgwick's hand and knocked the revolver to the ground but the officer fired and the bullet struck Sedgwick in the breast before Buck realized that Sedgwick's revolver had dropped. Sedgwick admitted to the planning of smuggling forty gallons of whiskey across the border that night. He said he mistook Buck's car for one belonging to two Los Angeles men who were to receive the whiskey. He is believed to belong to a large whiskey smuggling ring.

CHRISTENSEN SAYS KENT'S TO BACK HIM.

FARMER-LABOR MAN STARTS HERE HIS NEW CAMPAIGN FOR PRESIDENCY.

Parley Parker Christensen, President of the Farmer-Labor party in the recent elections, yesterday formally opened the campaign of 1924 for his party in Labor Temple of placing himself in nomination and accepting on behalf of himself. He then proceeded to outline the program which he proposes to carry out as President.

Incidentally he dropped the information that certain rich men of the parlor Socialist type are getting up money for the campaign. Among those referred to by him is William Kent, unsuccessful aspirant for the Republican nomination in the August primaries. He said Mr. Kent is planning to immediately launch in California a wholesale hide and shoe business supported by an extensive shoe distributing system along retail lines.

Behind this screen the Farmer-Labor party will operate an extensive industry, with headquarters in the Carrizo Plain. The profits made from the business will go toward the spread of Farmer-Labor in the Carrizo Plain.

Other wealthy and disinterested friends of the party in other States will play a role in the same role. Christensen announced Mr. Kent will assume here.

Behind the things advocated by Mr. Christensen and promised as President-elect were: Privatization of the Carrizo Plain, virtual control of private property in "key industries," and the right of a claim to veto any such co-operative scheme as outlined. I do believe that, were such a plan organized, it would be a great co-operative opportunity.

"I offered my ideas to Mr. Christensen on co-operative work in general," said Mr. Kent tonight. "I was not, and am not, interested in the scheme as related to any political party. I do not intend to finance any such co-operative scheme as outlined. I do believe that, were such a plan organized, it would be a great co-operative opportunity."

Following his talk in the Labor Temple Mr. Christensen addressed another gathering in Blanchard Hall. While in the city he stayed at the Alexandria.

KENT DENIES IT.
BY A. P. NORTON WIRE.

SAN FRANCISCO, Nov. 7.—William Kent, former Congressman for California and candidate for the Republican nomination for the Senate this year, tonight denied that he would finance any co-operative scheme in Southern California.

Mr. Kent was named tonight in Los Angeles by Parley P. Christensen as the possible financier of a co-operative scheme to be conducted by the Farmer-Labor party as a means of educating the public and helping to finance the 1924 campaign.

"I offered my ideas to Mr. Christensen on co-operative work in general," said Mr. Kent tonight. "I was not, and am not, interested in the scheme as related to any political party. I do not intend to finance any such co-operative scheme as outlined. I do believe that, were such a plan organized, it would be a great co-operative opportunity."

Following his talk in the Labor Temple Mr. Christensen addressed another gathering in Blanchard Hall. While in the city he stayed at the Alexandria.

KENT DENIES IT.
BY A. P. NORTON WIRE.

SAN FRANCISCO, Nov. 7.—William Kent, former Congressman for California and candidate for the Republican nomination for the Senate this year, tonight denied that he would finance any co-operative scheme in Southern California.

Mr. Kent was named tonight in Los Angeles by Parley P. Christensen as the possible financier of a co-operative scheme to be conducted by the Farmer-Labor party as a means of educating the public and helping to finance the 1924 campaign.

"I offered my ideas to Mr. Christensen on co-operative work in general," said Mr. Kent tonight. "I was not, and am not, interested in the scheme as related to any political party. I do not intend to finance any such co-operative scheme as outlined. I do believe that, were such a plan organized, it would be a great co-operative opportunity."

Following his talk in the Labor Temple Mr. Christensen addressed another gathering in Blanchard Hall. While in the city he stayed at the Alexandria.

CONSCIENCE MAKES BOY CONFESS.

Store Owner He Robbed and Detectives He Told Help Him to Get New Stamp.

"Jail—jail—jail—jail."

As the rain fell outside each drop seemed distinctly to sound this word to a slightly built boy, who stood before the desk in the detective office at Central Police Station and told his story.

His name doesn't matter. He is only a boy and to the police he is but an incident, remembered to be forgotten tomorrow.

Late Saturday night when the storm was the heaviest, he stood in an alley of a Broadway candy store, the rain falling in sheets about him. He was hungry and broke. Seeing a window through which to crawl, he entered the kitchen of the store.

He was alone. The owner of the store was not in. He was alone. The owner of the store was not in. He was alone. The owner of the store was not in.

He was alone. The owner of the store was not in. He was alone. The owner of the store was not in. He was alone. The owner of the store was not in.

He was alone. The owner of the store was not in. He was alone. The owner of the store was not in. He was alone. The owner of the store was not in.

He was alone. The owner of the store was not in. He was alone. The owner of the store was not in. He was alone. The owner of the store was not in.

He was alone. The owner of the store was not in. He was alone. The owner of the store was not in. He was alone. The owner of the store was not in.

He was alone. The owner of the store was not in. He was alone. The owner of the store was not in. He was alone. The owner of the store was not in.

He was alone. The owner of the store was not in. He was alone. The owner of the store was not in. He was alone. The owner of the store was not in.

NEEDS RISE TO EXTEND.

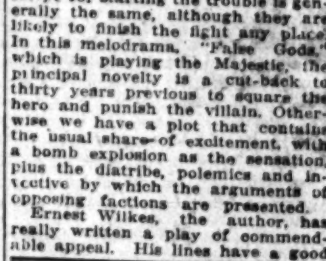

Telephone Chief Declares Increase in the Company's Rates Imperative.

Unless the Southern California Telephone Company is granted an increase in rates it will be unable to make further extensions, Commercial Superintendent N. R. Fowler, declared yesterday. He said the company will be unable to borrow any more money next year unless it can show it is earning money, and at the present rates it cannot make such a showing.

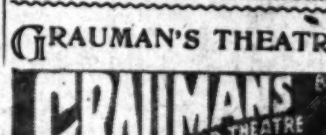

The telephone service of Southern California affects every resident.
